

MAKE A BOARD GAME FROM REPURPOSED MATERIALS

Board Game Design Kit from ScrapsKC

Have you ever dreamt of creating your own hit board game? Well now's your chance. To get started you will need to come up with an idea for your own board game. Think of a game you enjoy playing and why you like to play it. Is it based on strategy, logic, trivia, or chance? Does it have a theme, such as Candyland? The world is your oyster, so dream up a game you would enjoy playing.

After you have an idea for your board game, you must create the rules. Write these on a piece of paper around the size of a CD case. Gather the materials you will need to construct the board. Cut up pieces of paper to make the pathway, glue them to the board, and decorate to your liking. Lastly, make some game pieces.

Most board games require a spinner. This kit provides you with the materials for a CD case spinner. Take a CD and use washi tape to create the sections. Finish by attaching an arrow to the middle with brads.
