

## MAKE A FAIRY GARDEN FROM REPURPOSED MATERIALS

# Fairy Garden ScrapsKC

The fairy garden kit includes open-ended items, with a woodland theme. The items can be used as a play set to stack and rearrange as you wish. Or could be glued together for a more permanent structure for your garden or yard. Start with a base and stack your wood pieces to make a wall, stairs, levels, or furniture. Your kit will include some binding material like floral wire or pipe cleaners to help you connect pieces. Glue is not provided.

Can you create a shelter for a fairy? Or furniture? How would a fairy arrange their garden? Would a fairy like to have a pond? Search for more building materials outside! Find sticks and nature treasures to add to your garden. Consider adding dirt to your cardboard container, or another planter you already have, to build a fairy garden with live plants!

When you are done, set out the garden for your local fairies to find and enjoy. Each kit comes with a woodland creature for imaginative playtime fun.

These fairy garden kits are sold individually or in groups of 12 for birthday party activities!

Each set is a little different, based on available supplies.
